

REDWOOD ROAD PELICAN POINT TO 400 SOUTH

WORK SCHEDULE:

Start: June 21, 2010

**Complete:
November 1, 2010**

WORK HOURS:

Monday - Friday
7 am - 7 pm

Occasional Saturday
Work

WHAT TO EXPECT:

Dust
Noise
Delays - Some
operations will
require one-way
traffic with a flagger

What: Monday, June 21st, UDOT will begin work on the Redwood Road Construction Project. The work will be complete by November 1, 2010.

Activities Include:

- 1) **Installation of Storm Drain Pipe** - From Lakeview Terrace to 1200 feet north of Grandview a new drainage system will be installed to help eliminate ponding that occurs in that area.
- 2) **Road Widening** - From 400 South to Grandview, Redwood Road will be widened from 2 lanes to 3 lanes, adding a center turn lane and widening the shoulders.
- 3) **Road Rehabilitation (Removing and Replacing Asphalt)**- From Grandview to mile marker 23 (the materials pit) the road will be rehabilitated. There will be no widening on this portion of the project.
- 4) **Trail** -Portions of the existing trail will be relocated through the widening section along the Saratoga Springs Home Development as part of this construction project.

SR-68 Road Construction

Access to SR 68

The Saratoga Springs Home Owners Association Board has elected to close all the entrances to Redwood Road to keep traffic from using the private streets as a short cut to avoid construction delays. The Board did so for the safety of the homeowners and to preserve the private roads of the community. All three entrances on Redwood Road will be closed during the construction. All homeowners will need to use the north entrance and 400 S to access Redwood Road.

Landscaping

As part of the roadway improvement, UDOT has purchased some of the landscaped area between Redwood Road and the adjacent homeowners. The HOA has commissioned the Architectural Control Committee (ACC) to work closely with UDOT on the roadway improvements and impacts to the remaining HOA property. As a result of the new roadway, the existing trail will be relocated. The ACC and UDOT are working to mitigate damage and save as many of the trees as possible and to design the best solution for the new trail. Part of the solution will be to construct a small wall adjacent to the trail with embankment on the homeowners' side where feasible. The HOA is planning on using some of the money from the right of way purchase to enhance the landscaping once the project is completed.
